1 **Meta Guinea Ghost App**: The universal "Flick-Switch" hub for ecosystem orchestration.

2 **Dragon Chip Mix App**: Professional audio/visual monitoring utilizing the **Sovereign Pipeline™** for zero-bottleneck data flow.

3 **Ghost Voice ID**: Minimalist, high-security vocal handshake for instant device pairing.

4 **Ghost Dictate**: Zero-error, real-time voice-to-command engine utilizing the **SIR Protocol**.

5 **Dragon Chip Ghost AMP**: The 360Hz "Master Architect." A high-headroom hardware executor that manages the power and data for all connected Bricks.

II. THE PHYSICAL CANVAS (Reactive Surfaces & Wearables)

6 **Ghost Sensor Tile**: Structural, load-bearing 8K floor/wall units. A permanent **Physical Canvas** for environmental simulation.

7 **Ghost Sensor Mat**: Portable, roll-out **Physical Canvas**. High-impact reactive surface for "Multiverse" applications (ripples, shattering, etc.).

8 **Ghost-Skin**: Modular multispectral garment built from **Class-S Nano-Bricks**. A wearable 4K canvas that moves with the body.

9 **Ghost Cap**: The entry-level identity node. A high-volume wearable featuring a modular 4K logo/display Brick.

10 **Ghost Roll-Flexi Screen**: Industrial-grade rollable FOLED stabilized by **Nitinol** (Shape Memory Alloy) for rugged, flexible deployment.

III. THE INTERCONNECTIVE INFRASTRUCTURE (The "Lego" Bond)

11 **The Ghost Brick™**: The universal connectivity philosophy. A standardized 8-pin mating DNA used across all 4K/8K appliances.

12 **The Ghost Spine™**: The universal mounting track and high-voltage power rail. The "Baseplate" for all structural Bricks.

13 **The Ghost Hook™**: Industrial-grade mechanical interlocking system for securing large-scale Bricks to the Spine.

14 **The Ghost Pulse™**: The proprietary 1.2V electronic release signal that allows for effortless "Snap-and-Release" of N52 magnetic bonds.

15 **Ghost Archive 35mm**: The "Heritage-Tech" bridge. A high-end analog-digital hybrid identity stamp for verified, unalterable visual records.
